

Data presented in chart below represents IPEDS reported retention data. The significant drop came about after becoming part of the Alabama Community College System. Service Academy Preparatory (SAP) Program completers were disallowed in the reporting calculations until the program can be approved by the State Board of Education as a one-year Certificate Program.

## MMI Historical Retention Data

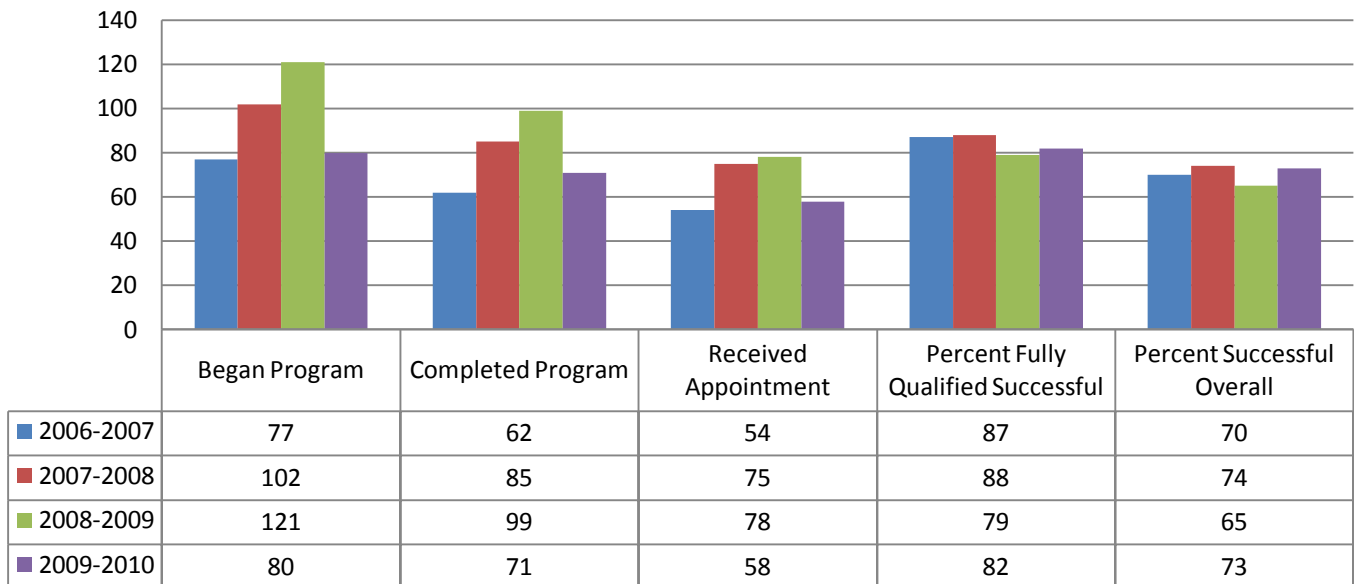

## SAP Program Historical Data

The Marion Military Institute Service Academy Preparatory (SAP) Program is by design a one-year program. The program's completion/success rates are illustrated below:

Year	Program Completion Rate
2006-2007	81%
2007-2008	83%
2008-2009	85%
2009-2010	89%

The completion rate of MMI's Service Academy Preparatory Program has increased each of the last four years.

The chart above depicts the actual number of cadets who began the SAP Program, completed the program, and the number that received Academy Appointments. The term "Fully Qualified" denotes cadets that completed the program and were medically qualified for Academy consideration. The overall success percentage is all inclusive and based on the number that began the program and received their appointment. Historical appointment records can be viewed by clicking here:
