OFFICE OF THE PRESIDENT

RE: Executive Order 47 - Summary

The following summary outlines how Marion Military Institute plans to use its allocation of the education stabilization dollars in current and future years.

During this FY the school plan to utilize the \$379,311 of stimulus fund to pay salaries that will save approximately 19 positions at Marion Military Institute in administrative positions. These positions are vital to supporting the day to day functions of the school and are primarily assistant positions.

MMI is evaluating ways of increasing revenue and decreasing scholarships in order to fund school support when stimulus funds are no longer available. MMI's intention is to minimize our need to increase tuition and fees for students.
